

Project Proposal

Establishment of an Ayurveda Channelling Centre

Devya Ceylon Ayurveda Centre

Empowering Well-being

1. Project Title

Development of "Devya Ceylon Ayurveda Centre"
Ayurveda Channelling Centre

2. Executive Summary

Devya Ceylon Ayurveda Centre proposes to establish a modern Ayurveda Channelling Centre that integrates traditional Sri Lankan Ayurveda consultation and wellness therapies with efficient appointment-based healthcare delivery. The Centre will serve as a trusted gateway connecting patients to qualified Ayurveda medical practitioners, specialized treatment packages, wellness consultations, and preventive healthcare services in a professional, client-friendly environment.

The project aims to improve accessibility, convenience, and quality of Ayurveda healthcare while promoting wellness tourism and preventive medicine in Sri Lanka.

3. Background / Rationale

The demand for structured, appointment-based healthcare services in Ayurveda is increasing due to:

- Growing public interest in preventive and holistic healthcare
- Rising demand for Ayurveda wellness and therapeutic services
- Need for organized specialist consultation systems in the Ayurveda sector
- Limited availability of professional Ayurveda appointment/channelling platforms
- Increasing medical and wellness tourism opportunities in Sri Lanka

Devya Ceylon Ayurveda Centre intends to bridge this service gap through a high-quality Ayurveda channelling and wellness centre.

4. Vision

Empowering Well-being

To become Sri Lanka's leading trusted Ayurveda channelling and integrated wellness centre, delivering accessible, authentic, and modernized traditional healthcare.

5. Mission

To provide professional, convenient, and patient-centred Ayurveda consultation and wellness services through qualified practitioners, innovative service delivery, and authentic Sri Lankan healing traditions.

6. Project Objectives

General Objective

To establish a sustainable Ayurveda Channelling Centre delivering quality traditional healthcare and wellness services.

Specific Objectives

- Facilitate appointment-based consultations with qualified Ayurveda doctors.
 - Provide specialized wellness and therapeutic treatment packages.
 - Promote preventive health and healthy lifestyle practices.
 - Support medical and wellness tourism initiatives.
 - Digitalize appointment booking and patient record systems.
 - Create employment opportunities in the Ayurveda and wellness sectors.
-

7. Proposed Services

Core Clinical Services
